

SBI Success Cards

New user access guide

Welcome. The SBI Success Cards are a gated, founder-approved resource. Free access is granted on request — follow the four steps below to unlock your deck.

How to get access (4 steps)

1 • Create your account

Visit spicybehavioralinstitute.com and sign in (or create a free account). You'll need a verified email to receive your approval notice.

2 • Open the Success Cards page

Go to [/sbi-success-cards](#) or click the **SBI Success Cards** tile on the homepage.

3 • Request free access

Submit the short request form (a sentence or two about how you plan to use the cards is plenty). Your request is sent directly to the founder for review — you'll see a *Pending approval* screen confirming it was received.

4 • Watch for your approval email

Once approved, you'll get a **You're in** email. Return to [/sbi-success-cards](#) and your deck unlocks automatically — no code to copy or paste.

Each time you open the deck

- **Intake (required):** A quick form asking what you're using the cards for that session.
- **Use the deck:** Browse, draw, and apply cards as needed.
- **Review (required on return):** Before your next session, leave a short star rating + reflection on the previous one.

Track your request status

Visit [/sbi-success-cards/status](#) any time to see a full timeline of your requests — submitted, approved, or denied — along with any note from the founder and a complete audit log.

Already have a code?

Founding supporters and event attendees may receive a direct access code. On [/sbi-success-cards](#), choose *Already have a code?* and enter it to unlock instantly.

Need help?

If your approval hasn't arrived within 48 hours, or you have trouble signing in, email **alexischelle10@gmail.com** with the subject line *Success Cards access* and we'll get you in.
